

# Unlimited fleet tracking possibilities

Nationwide is pleased to introduce you to Razor Tracking, which offers a program to help increase the safety of your fleet drivers and decrease the cost of your business operations with real-time telematics data and reporting. Through Razor Tracking's in-depth data and reporting, farm and fleet managers can enhance efficiency, monitor speeding, receive real-time alerts, and view their entire fleet all on one screen.

## The Razor Tracking difference

- Improve operational safety and efficiency
- Real-time fleet tracking
- On Demand asset trackers
- Dash cameras including AI cameras
- Tailored solutions for small family farms to large agribusinesses
- Learn more at [RazorTracking.com/Nationwide](https://RazorTracking.com/Nationwide)

## Nationwide helps you save

Nationwide is your partner in delivering ag technology that enables customers to manage and mitigate risk.

As a Nationwide customer, you get access to preferred pricing from Razor Tracking.
