

Add another layer of fire safety

Nationwide is pleased to introduce you to E Fire USA which offers an innovative new tool in fire mitigation known as the E Fire Extinguishing Ball (EFB). These self-activating devices can be mounted or thrown and upon contact with flame will disperse an ABC dry chemical to extinguish a fire. E Fire Extinguishing Balls are particularly well suited for ag operations and equipment to fires like combines, tractors, or equipment used in the field.

The E Fire USA difference

E Fire Extinguishing Balls are:

- Light and portable — 2.86 lbs
- Rapid activation — 3-5 seconds
- Life span — 7-10 years
- Ecological — non-toxic, environmentally friendly
- Autonomous — 24/7 fire prevention
- Learn more at the [E Fire USA website](#)

Nationwide helps you save
