

# An all-in-one system to reduce hay fires

Nationwide is pleased to introduce you to HAYTECH, a powerful solution from Quanturi, to help enhance the profitability and security of production through hay temperature and quality monitoring for farmers, ranchers, and agribusinesses.

## The HAYTECH difference

- Wireless probes provide 24/7 monitoring of temperature deep inside the core of round or square bales
- SMS or email alerts notify operators in case of abnormal temperatures
- Real-time monitoring through HAYTECH desktop or mobile tracking app
- Learn more at [HaytechSystem.com/Nationwide](https://HaytechSystem.com/Nationwide)

## Nationwide helps you save

Nationwide has partnered with Quanturi to deliver savings to our customers on their HAYTECH solution.

## As a Nationwide customer you receive a 10% discount
